In the name of Allaah, the Most Merciful, the Bestower of Mercy

Advice from Shaykh Saalih Fawzaan (حفظه الله)¹

Shaykh Fawzaan (حفظه الله): Be diligent (O sisters) in managing your time, such that your work can be enjoyable. And make your homes always like a clean organised garden; for the home is indicative of the lady of the house. And with cleanliness and organisation the home will have the most beautiful representation, even if the furniture is modest and humble; and the opposite is also true. When the husband and the children return from their jobs and studies tired, and they find a home organised and clean it will lessen their stress and their load; and the opposite is true. Therefore a clean organised house is from the most important means for the home to be serene and comfortable.
